How to be a REAL success

Success is:
 knowing your purpose in life; growing to your maximum potential; sowing the seeds that benefit others. It is a rather simple recipe yet requires awareness, study, practice and mentoring to achieve.

The four elements to success

Relationships

Love and accept yourself. The only relationship in your life that

is continual and therefore most important, is with yourself. The first person you learn to get along with is you.

Equipping

Our attitude is a choice. It determines our approach to life. It can turn our problems into blessings. Taking inventory of our attitude allows us to grow and foster an environment to empower and equip those around us while also nurturing our inner leadership skills.

Attitude

Our attitude is a choice. It determines our approach to life. It can turn our problems into blessings. Taking inventory of our attitude allows us to grow and foster an environment to empower and equip those around us while also nurturing our inner leadership skills.

Leadership

The Law of the Lid states that leadership ability determines a person's level of effectiveness. The Law of the Process states that leaders develop daily and not in a day. Leadership takes time and energy to develop. We overestimate the event and we underestimate the process. The secret to becoming a successful leader is discovered in your daily agenda.

HOW TO BE A REAL SUCCESS

“Success is simply a matter of luck. ask any failure!”

Earle Wilson

To become a REAL success it is imperative to **RELATE** to others better as

you understand relational rules. Adding value to people helps them to reach their full potential.

Recognizing and building on the leadership potential in those around you and applying teamwork laws will help you take others to a higher level by **EQUIPPING** them with the proper skill sets.

Improving your **ATTITUDE** through daily practices, understanding the affect your attitude has on you and those around you, and adopting an attitude that makes challenges easier to overcome is key to your success.

By emulating what successful leaders do to remain at the top, **LEADING** others successfully to where you have gone and beyond, and influencing others from the heart and not just the head is the remaining piece of the puzzle for REAL success.
